1. Report on the Progress Made in Establishing the National Network of Green and Digital Universities of Kyrgyzstan (GDU Network)

The work plan of the GREEN.KG project, “*Green and Digital Universities for Sustainable Development of Kyrgyzstan*,” provides for the establishment of the National Network of Higher Education Institutions of the Kyrgyz Republic, “*Green and Digital Universities*” (hereinafter referred to as the National GDU Network).

Significant organizational and preparatory work has been undertaken to achieve this objective. In March 2025, Osh State University (OshSU) developed draft versions of the Agreement on the Establishment of the National GDU Network and the Regulations governing its activities. These documents were submitted to the project participants for discussion.

During the consultation process, representatives of all participating universities submitted their proposals and comments on the draft documents and subsequently coordinated their contents with their respective university administrations. This process established an agreed basis for the further development and organizational establishment of the National GDU Network.

To discuss and adopt the documents required for establishing the National GDU Network, Osh State University organized an international scientific and practical conference entitled “*Establishing the National GDU Network: Objectives and Implementation Pathways*” on 15–16 May 2025.

One month before the conference, a dedicated website was launched containing information about the event's objectives, thematic areas and organizational arrangements (Appendix 1): <https://gdu.oshsu.kg/conferen.php>.

In addition, an information letter announcing the conference was prepared and circulated, providing details about the event and participation requirements: https://gdu.oshsu.kg/Information_letter_about_the_Osh_State_University_Conference.pdf. Official invitations were also sent to the participants: https://greenkg.vercel.app/news/news_announcements/attention-invitation-to-the-international-conference-on-creating-a-national-gdu-network.

The conference brought together representatives of higher education institutions from Kyrgyzstan, Uzbekistan, Germany and Lithuania, as well as experts, members of the academic community and representatives of government institutions (Appendix 2).

Over the two days, participants discussed the current status and key achievements of the GREEN.KG project, “*Green and Digital Universities for Sustainable Development of Kyrgyzstan*,” as well as issues related to the establishment of the National Network of Higher Education Institutions of the Kyrgyz Republic, “*Green and Digital Universities*.”

Dozens of presentations addressing various aspects of the GREEN.KG project were delivered during the plenary and parallel sessions. Participants were introduced to presentations on digital transformation in education, improving the quality of education, sustainable development and environmental responsibility.

Particular attention was paid to the draft Agreement on the Establishment of the National GDU Network, the internal organizational mechanisms for establishing and operating the Network, and its legal, financial and administrative aspects. During the discussions, participants submitted proposals and recommendations for improving the draft Agreement, with the aim of ensuring effective cooperation among member universities and defining the main priorities for the Network's future activities.

As part of the conference programme, participants also learned about international experience in implementing green initiatives in higher education and visited modern technological facilities at Osh State University, including the Next Generation HUB, the Robotics Centre and the Satellite Analysis Centre.

The conference programme is provided in Appendix 3 and is available at the following link: <https://gdu.oshsu.kg/programm4.pdf>.

Further information about the conference is available through the following resources:

Official information about the conference: <https://www.oshsu.kg/en/news/3298>

Additional conference information:

https://greenkg.vercel.app/news/news_meetings/scientific-practical-conference-at-osh-state-university-unites-leading-kyrgyz-universities-to-build-the-green-and-digital-university-network-erasmus-greenkg-project-shows-remarkable-progress

Video materials about the conference:

<https://www.facebook.com/share/v/1EBgK5DQ1k/>

Following the discussions, relevant amendments and additions were incorporated into the Agreement on the Establishment of the National Network of Higher Education Institutions of the Kyrgyz Republic, “*Green and Digital Universities*”. After revision, the document was approved by the authorized representatives of the ten universities participating in the project. The final version of the Agreement was signed by the rectors of all ten universities, marking an important organizational milestone in the establishment and institutional development of the National GDU Network.

Furthermore, an official website was created to support the information and communication activities of the National GDU Network. The website provides information about the Network's activities, member institutions, key areas of work and ongoing initiatives.

2. Agreement on the Establishment of the National Network of Higher Education Institutions of the Kyrgyz Republic “Green and Digital Universities”

AGREEMENT

on the establishment of the Kyrgyz Republic Universities National
Network «Green and Digital Universities»

Osh city

“16” May 2025

1. General Provisions

1.1. The partner universities of the Kyrgyz Republic, participants of the project 101126755 “Green and Digital Universities for Sustainable Development of Kyrgyzstan” of the Erasmus+ program (hereinafter referred to as GREENKG), henceforth collectively referred to as the “Parties”, conclude this agreement on the establishment of the National Network of Universities of the Kyrgyz Republic “Green and Digital Universities” (hereinafter referred to as the Network).

1.2. The Network is a national, open and voluntary platform for cooperation in the field of sustainable development, green economy, digital transformation and innovative technology.

1.3. The Network is guided by the principles and goals of the Sustainable Development Strategy of the Kyrgyz Republic for 2018-2040 and the National Development Program of the Kyrgyz Republic until 2026.

2. Goals and Objectives of the Network

2.1. The goals of the Network are:

- promotion of environmental and digital initiatives in the university environment;
- strengthening academic and scientific cooperation between domestic universities;
- development and implementation of joint projects in the field of sustainable development, green technologies and digital innovations;
- development of the teachers, researchers and students potential in the designated areas.

2.2. The main objectives of the Network include:

- ensuring the availability and joint use of the resource base and infrastructure of the Parties for the implementation of joint research and work;
- implementation of “Green and Digital University” model developed within the framework of the project;
- continuation of joint work in priority areas of the Network, after completion of the project;
- preparation and submission of joint applications for grants for further work on digitalization and greening of universities.
- greening of campuses and resource management (water, energy, waste);

- digitalization of administrative and educational processes;
- implementation of courses and programs on sustainable development, climate, artificial intelligence, Big Data and digital skills;
- conducting internships, seminars, trainings and research work based on green and digital offices created with the financial support of the project;
- publishing joint scientific research and reports on sustainable development.

3. Membership and Partnership

3.1. The accredited higher education institutions of the Kyrgyz Republic may become members of the Network.

3.2. New members are admitted based on the submission of an application and consideration at the general meeting of the Parties.

3.3. The Network welcomes the participation of partner organizations (government agencies, NGOs, research centers) in the status of observers or consultants.

3.4. The Network is open to other educational institutions of the Kyrgyz Republic, subject to the consent of the majority of Network participants.

3.5. The Parties have the right to involve third parties in the activities of the Network, including foreign scientific and educational organizations, as associate members of the Network.

4. Organizational Structure

4.1. The Network is governed as follows:

- The Network Council is the highest strategic decision-making body, consisting of two representatives from each university, and coordinates day-to-day activities, communications and administrative support.
- The Chairman of the Network Council is elected from among the Network's member rectors and is subsequently re-elected every 3 years.
- The Network Council meets at least once a year in accordance with the work plan it approves. If necessary, meetings may be held unscheduled. Meetings may be held via video and/or audio conferencing.
- The main function of the Council is to develop the main principles of cooperation and make conceptual decisions aimed at achieving the goals of the Network.
- A meeting of the Network Council has a quorum if at least 2/3 (two thirds) of the active members of the Network participate in the decision-making.
- Decisions of the Network Council are made by a majority of votes registered to participate in the meeting of the Network Council.

- Working groups are created by specific topics (for example, “Green Campus”, “Digital Learning”, “Energy”, etc.).

4.2. The official languages of the Network are Kyrgyz, Russian and English.

5. Financing of the Network's Activities

5.1. Financing is provided by:

- GREENKG project;
- voluntary membership fees;
- international grant programs;
- targeted funding from universities, foundations and private donors.

5.2. Each Party independently bears the costs associated with its participation in the Network, unless otherwise provided by separate agreements.

5.3. The Agreement does not impose any property or financial obligations on the Parties that have signed it.

6. Legal Status and Jurisdiction

6.1. The Network is not a legal entity, unless otherwise agreed in the future.

6.2. The regulatory framework for the activities of the Parties within the Network are the legislation of the Kyrgyz Republic, the Agreement, the Network Development Plan, organizational agreements and contracts of the Network, as well as other contracts concluded by the Parties among themselves and with the third parties.

6.3. The rights to protected results of intellectual activity (developments, methods, utility models) created during the implementation of the Network's work program within the framework of the Agreement are distributed in equal shares between the Parties that have received the corresponding results.

6.4. All disputes are resolved through negotiations. If resolution is impossible, it will be considered within the framework of the legislation of the Kyrgyz Republic.

7. Term and Termination of Agreement

7.1. The Agreement enters into force upon signing and is valid indefinitely.

7.2. Each Party has the right to withdraw from the Network by giving written notice 3 months in advance.

7.3. The Agreement may be revised and supplemented by mutual agreement of the Parties.

8. Final Provisions

8.1. The Agreement is made in ten copies in Kyrgyz, Russian and English, one copy for each partner university. All three texts have equal legal force.

8.2. The appendices and minutes of the meetings signed by the Parties are an integral part of the Agreement.

Signatures of the Parties:

Rector of the Diplomatic Academy of
the Kyrgyz Republic Ministry of
Foreign Affairs named after K. Dikambaev

A. M. Kylychev

Rector of Batken State University

A.T. Gyyazov

Rector of Bishkek State University
named after K. Karasaev

M.M. Oylidaev

Rector of Issyk-Kul State
University named after K. Tynystanov

A.A. Imanbaev

Rector of the Kyrgyz State Medical
Academy named after. I. Akhunbaev

T.O. Kudalberganova

Rector of the Kyrgyz State Technical
University named after I. Razzakov

M.K. Chynybaev

Rector of the Kyrgyz State
University named after I. Arabadanov

A.T. Abdraeva

Rector of the International Higher
School of Medicine

S.M. Akhunbaev

Rector of Naryn State University
named after S. Naamatov

T.A. Isabekov

Rector of Osh State University

K.G. Kozhobekov

The Agreement on the Establishment of the National GDU Network is available on the GREENKG project website at the following link:

https://greenkg.vercel.app/news/news_announcements/gdu-national-network-agreement

3. Meeting No. 1 of the Council of the National Network of Green and Digital Universities of Kyrgyzstan (GDU Network)

On 3 July 2025, a meeting was held at I. Arabaev Kyrgyz State University within the framework of the GREEN.KG project, “*Green and Digital Universities for Sustainable Development of Kyrgyzstan*,” alongside the first meeting of the Council of the National Network of Green and Digital Universities.

The main purpose of the event was to hold a formal ceremony for the mutual exchange of previously signed agreements between the rectors of partner universities participating in the National GDU Network, established on the basis of the “*Green and Digital Universities*” model (Appendix 4).

Further information about the event is available at the following link:

<https://arabaevksu.edu.kg/en/news/kmuda-kyrgyzstandyn-turuktuu-n-g-s-ch-n-sanariptik-zhana-zhashyl-universitetter-greenkg-dolboorunun-alkagynda-zhyyyyn-tt>

During the meeting, the Council considered the following agenda items:

1. Report on the Progress Made in Establishing the National Network of Green and Digital Universities of Kyrgyzstan (GDU Network).

Presenter: Professor K.G. Kozhobekov, Rector of Osh State University.

2. Approval of the Composition of the GDU Network Council.

University rectors were invited to propose candidates for membership in the Network Council.

3. Approval of the Regulations on the National Network of Higher Education Institutions of the Kyrgyz Republic “Green and Digital Universities.”

4. Approval of the GDU Network Council Work Plan for the 2025–2026 Academic Year.

Presenter: Professor K.G. Kozhobekov, Rector of Osh State University.

5. Election of the Chairperson of the GDU Network Council.

6. Any Other Business.

The meeting was attended by the heads and representatives of all ten universities participating in the GREEN.KG project.

Following the meeting, the Regulations and Work Plan of the National GDU Network were approved, the composition of the Council was confirmed, and its Chairperson was elected.

Professor Aigul Tolokovna Abdraeva, Rector of I. Arabaev Kyrgyz State University, was elected Chairperson of the Council of the National Network of Green and Digital Universities of Kyrgyzstan.

The minutes of the Council meeting are available at the following link: <https://gdunetwork.oshsu.kg/file/Meeting%20No.%201%20Network.pdf> .

4. Composition of the GDU Network Council

In accordance with the Agreement on the Establishment of the National Network of Higher Education Institutions of the Kyrgyz Republic, “Green and Digital Universities,” and taking into account the proposals submitted by university rectors, the following composition of the Council of the National Network of Green and Digital Universities of Kyrgyzstan (GDU Network) was approved:

1. **Aigul Tolokovna Abdraeva** – Rector of I. Arabaev Kyrgyz State University (KSU), Chairperson of the Council.
2. **Akylbek Mukaevich Kylychev** – Rector of the K. Dikambaev Diplomatic Academy of the Ministry of Foreign Affairs of the Kyrgyz Republic (DA MFA KR).
3. **Kudaiberdi Gaparalievich Kozhobekov** – Rector of Osh State University (OshSU).
4. **Mirlan Koichubekovich Chynybaev** – Rector of I. Razzakov Kyrgyz State Technical University (KSTU).
5. **Indira Orozobaevna Kudaibergenova** – Rector of I.K. Akhunbaev Kyrgyz State Medical Academy (KSMA).
6. **Mirlan Muktarovich Dyldaev** – Rector of K. Karasaev Bishkek State University (BSU).
7. **Stalbek Mederovich Akhunbaev** – Rector of the International Higher School of Medicine (IHSM).
8. **A. I. Imanbaev** – Rector of K. Tynystanov Issyk-Kul State University (IKSU).
9. **Khairiddin Rakhmanalievich Tairov** – Acting Rector of Batken State University (BatSU).
10. **Tilek Isabekov** – Rector of S. Naamatov Naryn State University (NSU), as indicated in the published announcement of his appointment.
11. **Zhanara Abdylbaevna Baitugolova** – Vice-Rector of the Diplomatic Academy of the Ministry of Foreign Affairs of the Kyrgyz Republic.
12. **Abdygany Osmonovich Abduvaliev** – Associate Professor at Osh State University.
13. **Gulnara Jamalbekovna Kabaeva** – Head of Department at Kyrgyz State Technical University.
14. **Gulnaz Tazhibaevna Zhalilova** – Vice-Rector of Kyrgyz State University.
15. **Makhabat Kerimbekovna Karagulova** – Head of the International Relations Department at the International Higher School of Medicine.
16. **Elegiya Toktonalievna Bokoeva** – Dean of the Faculty of Ecology and Management at Bishkek State University.
17. **Turnisa Bakhriddinovna Yusupova** – Head of the International Relations Department at Kyrgyz State Medical Academy.

18. **Indira Zhekshe nalievna Imanakunova** – Head of the International Relations Department at Issyk-Kul State University.
19. **Ermek Muratkanovich Baibagyshev** – Associate Professor at Naryn State University.
20. **Isa Murzaparovich Usonov** – Head of the Department of International Relations and Academic Mobility at Batken State University.
21. **Zilola Bakhtiyarzhanova Rakhimova** – Chief Specialist of the Department of International Relations at Osh State University.

5. Regulations on the National Network of Universities of the Kyrgyz Republic “Green and Digital Universities”

1. General Provisions

1.1. The Network is a national, open, and voluntary platform for cooperation in the fields of sustainable development, green economy, digital transformation, and innovative technologies.

1.2. The Network is guided by the principles and goals of the Sustainable Development Strategy of the Kyrgyz Republic for 2018–2040 and the National Development Program of the Kyrgyz Republic until 2026.

2. Goals and Objectives of the Network

2.1. The goals of the Network are:

- promotion of environmental and digital initiatives within the university environment;
- strengthening academic and scientific cooperation among national universities;
- development and implementation of joint projects in the field of sustainable development, green technologies, and digital innovations;
- capacity building of faculty members, researchers, and students in the designated areas..

2.2 The main objectives of the Network include:

- ensuring access to and joint use of the resource base and infrastructure of the Parties for the implementation of joint research and activities;
- implementation of the “Green and Digital University” model developed within the project;
- continuation of joint activities in the Network’s priority areas after the completion of the project;;
- preparation and submission of joint grant applications for further work on digitalization and greening of universities.
- greening of campuses and resource management (water, energy, waste);
- digitalization of administrative and educational processes;
- introduction of courses and programs on sustainable development, climate, artificial intelligence, Big Data, and digital skills;
- conducting internships, seminars, trainings, and research activities based on green and digital offices established with the financial support of the project;

- publication of joint scientific research and reports on sustainable development.

3. Membership and Partnership

3.1. Accredited higher education institutions of the Kyrgyz Republic may become members of the Network.

3.2. Admission of new members is carried out on the basis of submitting an application and its review at the general assembly of the Parties.

3.3. The Network welcomes the participation of partner organizations (government bodies, NGOs, research centers) in the status of observers or consultants.

3.4. The Network is open to the admission of other educational institutions of the Kyrgyz Republic, provided that the majority of Network members agree.

3.5. The Parties have the right to involve third parties in the activities of the Network, including foreign scientific and educational institutions, as associate members of the Network.

4. Organizational Structure

4.1. The Network is governed as follows:

- **The Network Council** – the highest body responsible for making strategic decisions; it consists of two representatives from each university and coordinates day-to-day activities, communication, and administrative support.

- The **Chairperson of the Network Council** is elected from among the rector members of the Network and is subsequently re-elected every 3 years.

- The Network Council meets at least once a year in accordance with its approved work plan. Meetings may be held via video and/or audio conferencing.

- The main function of the Council is to develop key principles of cooperation and adopt conceptual decisions aimed at achieving the goals of the Network.

- A meeting of the Network Council has a quorum if at least 2/3 (two thirds) of the active members of the Network participate in decision-making.

- Decisions of the Network Council are made by a majority of votes registered for participation in the Council meeting.

- **Working groups** are created based on thematic areas (e.g., “green campus,” “digital learning,” “energy,” etc.).

4.2. The official languages of the Network are Kyrgyz, Russian, and English.

5. Financing of the Network's Activities

5.1. Financing is carried out through:

- the GREENKG project;
- voluntary membership fees;
- international grant programs;
- targeted funding from universities, foundations, and private donors.

5.2. Each Party independently bears the costs associated with its participation in the Network, unless otherwise provided by separate agreements.

5.3. This Regulation does not impose any property or financial obligations on the Parties that have signed it.

6. Legal Status and Jurisdiction

6.1. The Network is not a legal entity unless otherwise agreed upon in the future.

6.2. The regulatory framework for the Parties' activities within the Network consists of the legislation of the Kyrgyz Republic, this Regulation, the Network Development Plan, organizational agreements and contracts of the Network, as well as other agreements concluded between the Parties and with third parties.

6.3. The rights to protected results of intellectual activity (developments, methods, utility models) created during the implementation of the Network's work program under this Regulation are distributed equally among the Parties that obtained these results.

6.4. All disputes shall be resolved through negotiations. If resolution is not possible, disputes shall be resolved in accordance with the legislation of the Kyrgyz Republic.

This Regulation was developed by Osh State University.

6. Work PLAN of the National network of higher education institutions of Kyrgyzstan "Green and Digital Universities"

Accepted: 03.07.2025

Responsible Body: Network Council

Validity period: June 2025 – May 2026

1. Organizational development of the Network				
№	Event	Term	Responsible persons	Expected result
1.1	Holding the founding meeting of the Network Council	until June 30, 2025	Kyrgyz State Technical University named after I. Razzakov	Approval of the rules of work, composition of the Council, working groups
1.2	Development and approval of the regulations on the Network	until 26 August 26, 2025	Osh State University	Approved Network regulations
1.3 3	Admission of new Network members (by request)	As it is received	Network Council	Membership Extensions
1.4	Creation and launch of the digital platform of the Network	up to 30 and June 2025	Osh State University	Online platform with sections on projects, applications, exchange of experience
2. Greening campuses				
№	Event	Term	Responsible persons	Expected result
2.1	Monitoring the current state of green practices at universities	Annually	All Network members	Analytical report on the eco-state of campuses
2.2	Development of a comprehensive plan for the environmental transformation of universities	October 2025	GDO of Universities	Approved comprehensive plan

2.3	"Green Campus of the Year" competition	March 2026	Network Council	Increasing engagement and implementing best practices
3. Digitalization of administrative management and the study process				
№	Event	Term	Responsible persons	Expected result
3.1	Pilot launch of the GDI management model by university	September 2025	GDO	Implementation of the model in 1-2 universities
3.2	Development and implementation of courses on sustainable development, AI, Big Data	September 2025	GDO	Training modules, interdisciplinary courses included in the curriculum

3.3	Online seminars and trainings on digital skills	During the year	GDO	least 200 teachers and students were trained during the GDO
4. Scientific and project initiatives				
№	Event	Term	Responsible persons	Expected result
4.1	Preparation of a joint application for an Erasmus+ or GIZ grant	December 2025	Grant Working Group	Submitted an application from the consortium
4.2	Conducting research projects on sustainable development	During the year	University research departments	3-5 joint publications in journals or collections
4.3	Organizing the annual scientific conference of the Network	April 2025	Network Council, host university	Conference organization, publication of the collection
5. Information support and promotion of the Network				
№	Event	Term	Responsible persons	Expected result

5.1	Launch of an information campaign in the media and social networks	During the year	PR group of the Network	Increasing Network awareness
5.2	Regular publication of a newsletter	Once a quarter	Coordination Office	Informing members and partners about activities
5.3	Support and participation in international forums	According to the schedule of events	All Network members	Present achievements and search for partners

Financial and resource prerequisites:

- Project support GREEN.KG
- Grants from Erasmus+, DAAD, GIZ
- Voluntary contributions and targeted funding of universities
- Partner contributions from NGOs and other organizations

Performance indicators (at the end of 2025):

- At least 10 active member universities
- 3 implemented environmental initiatives
- 2 digital pilot projects
- 1 joint international application
- 1 scientific conference and 5 publications
- A functioning digital platform

7. GDU Network Forum

A forum has been established on the official website of the National GDU Network as an open platform for discussing current issues related to the Network's operation, development and future activities. The forum is intended to facilitate the exchange of views and proposals among member universities, encourage discussion of joint initiatives and current challenges, and explore prospects for cooperation in the green and digital transformation of higher education.

The GDU Network Forum is available at: <https://gdunetwork.oshsu.kg/forum.php>.

The forum has addressed issues related to the operation and further development of the National Network of Green and Digital Universities of Kyrgyzstan (GDU Network), the role of the green economy and digitalization in modern society, the most effective digital platforms and tools for digitalizing the educational process, and other relevant topics.

8. On the Second Meeting of the Council of the National Network of Green and Digital Universities of Kyrgyzstan (GDU Network)

A meeting of the Council of the National Network of Green and Digital Universities is scheduled to take place on 21 October 2026 at I. Arabaev Kyrgyz State University. The main objective of the meeting is to discuss future areas of cooperation and the Network's activities following the completion of the GREEN.KG project, *“Green and Digital Universities for Sustainable Development of Kyrgyzstan.”*

During the meeting, participants are expected to discuss the establishment of working groups in key areas of the Network's activities, including Green Campus, Energy, Green Education, Digitalization of Education and other relevant areas.

Particular attention will be given to developing principles for cooperation among member universities, establishing mechanisms for making key decisions, defining the allocation of responsibilities and coordinating joint activities.

Following the meeting, the participants are expected to identify the main areas of focus and priority tasks for the National GDU Network for the subsequent period and develop a plan for its activities after the completion of the GREEN.KG project.
